

1. Locate the Zoom area in your Canvas Course.
2. Click on the 'Cloud Recordings' Tab

Remember In order for the recording to appear in your Canvas course, you MUST record to the cloud.

3. Make sure the 'Publish' tab is ON (as shown in picture below). The student will now be able to view the recording from the same location.

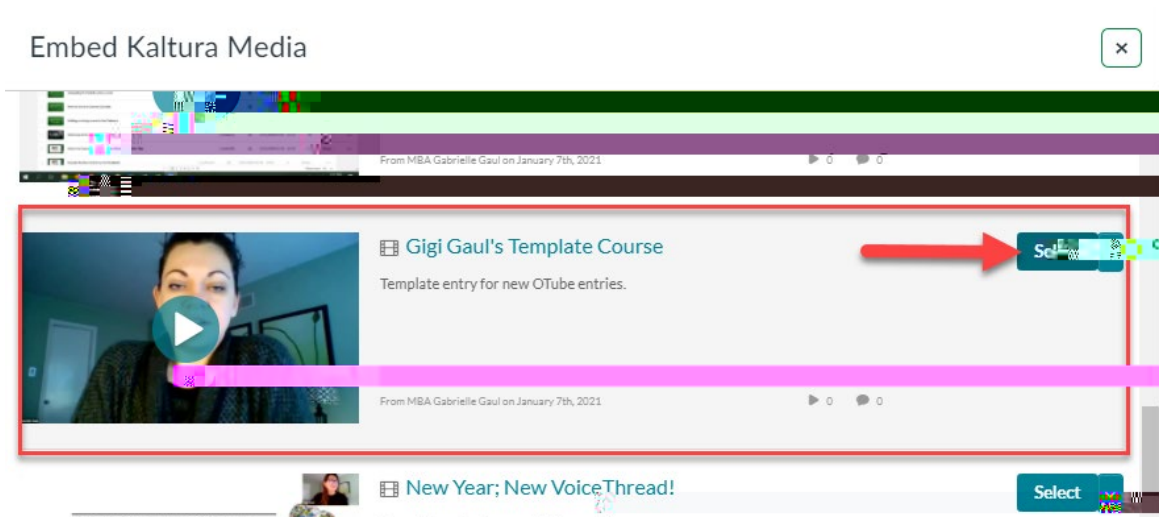

4. If your Zoom Account is authenticated through mu.zoom.us If id w T(n pid)MWhPp/AS0 (s)396

Announcement, Assignment, or Page in Canvas. Select the Kaltura Icon in the Rich Content Editor.

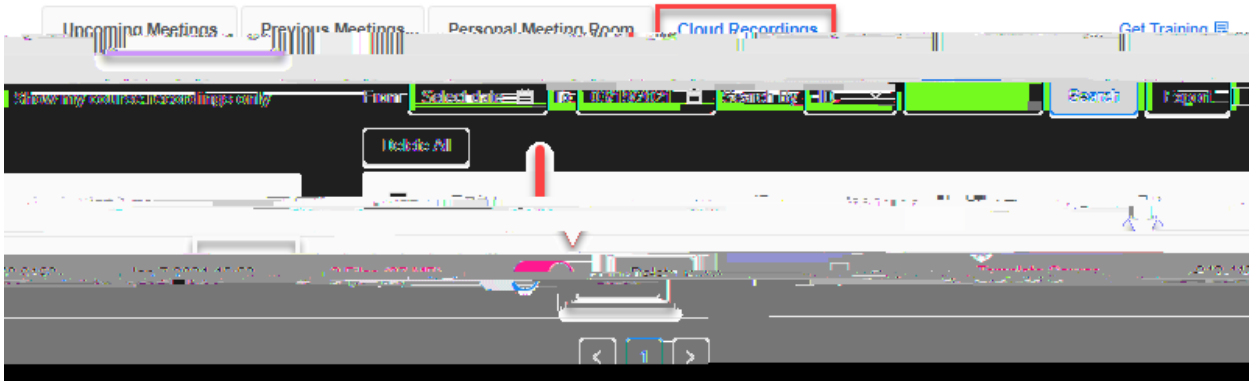

Editor.

6. In the My Media Tab, select the Zoom Recording. This will embed the recording into Canvas at the chosen location.

7. Instructors can also "Delete" or view their Cloud Recordings in Canvas. To delete select the

“Delete” button or click on the recording title to view the recording.

8. To play the recording click the “Play” symbol listed in the recording box. This will open the recording in a second window. Click play to view.
