

VMware Horizon Download and Installation for Chromebook

First, you'll need to download VMware Horizon Client from the Play Store

*If VMware Horizon Client is already installed on your phone select the option to Open instead

If this is your first time using the software you will need to allow access to VMware Horizon to use your phone's resources. Select ok and allow for each privilege:

Once in the VMware Horizon Client software you'll enter the Server Setup. Type in the server **apps.wilmu.edu** and choose to **Connect**

You will then be prompted to sign in with your University username and password:

*This will be the same sign on as your MywilmU account

Connecting to the Remote Desktop Server using browser

Open your web browser and go to apps.wilmu.edu. Once there you will be greeted by this screen:

Click on “VMware Horizon HTML Access” and you will be redirected to a WilmU sign in page where you will need to enter your full email and password.

Remote Desktop: This environment can be used for access to University offered software and will be a Windows desktop.

Available Software:

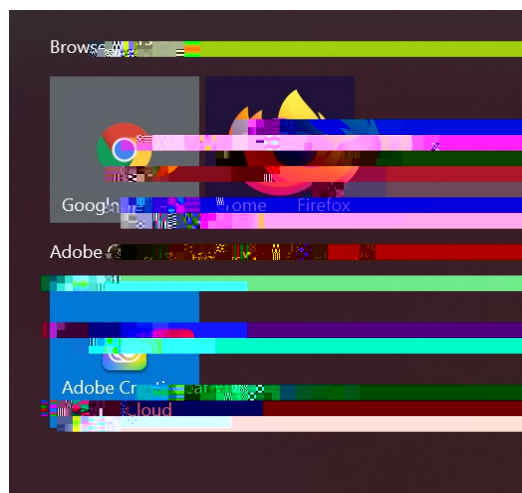

- SPSS
- Microsoft Office (with Project and Visio)
- Adobe Acrobat
- vCloud

Creative Desktop: This desktop is used to access creative tools and is a Windows desktop.

Available Software:

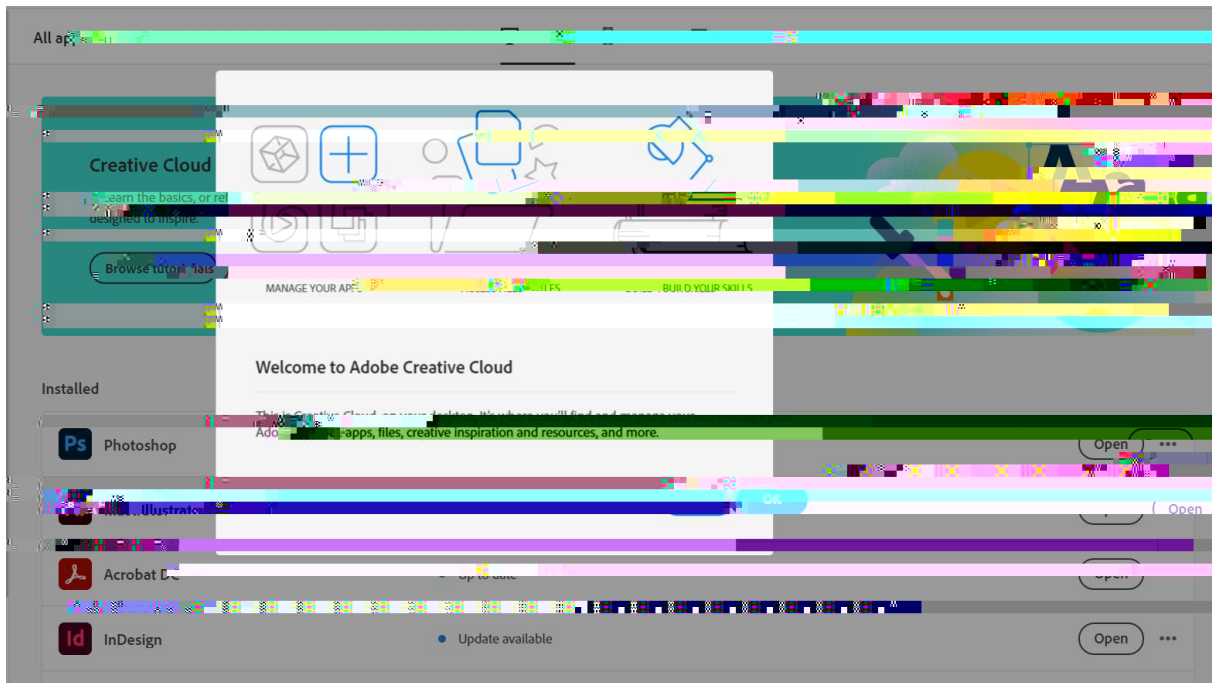

- Adobe Creative Cloud (A list of all software included in Creative Cloud can be found [HERE](#))

With the Adobe Creative Cloud you will need to sign in with your University credentials to access the software.

Once signed in all apps available through the Adobe Creative Cloud application:

All current students of the University will have access to the Remote Desktop and Creative Desktop through VMware Horizon and through apps.wilmu.edu
